It will be better to do this offline and after I have written back to you.

You are requested to be on the ESM call at 430pm EST today.
We have many important matters to cover your participation is required.

*I'll pass on this meeting today

(that you've cancelled several times)

until I respond to your "damage" email

and correct some things in it

and also write about my motivational damage.

Have a good meeting.*
